## ALL YOU NEED TO KNOW

### WHAT IS THE ILM?

The ILM is a premier body with experience in the field of Leadership and Management in the UK and internationally. Currently there are over 500,000 members that have joined a world-wide network of 2,000 approved centres providing flexible and practical management development programmes which are quality-assured to ILM's exacting standards, giving you the confidence that they will meet your needs, release your full potential and enhance your skills and prospects in the workplace.

The ILM takes the responsibility for developing more talented leaders than any other organisation giving them the skills to make a real difference in their organisation and beyond. The ILM is committed to helping organisations to thrive and grow through the application of industry defining leadership development. From experienced managers through to young workers wanting to feel more confident in making important decisions, the ILM helps individuals and organisations realise the potential they never knew they had.

### WHY OAKWOOD?

Oakwood continues to work hard to understand and respect issues relating to local culture. This is an important factor which is incorporated throughout our business philosophy all the way to our delivery methodology. We run very interactive programmes. Clearly there is some theory involved but we ensure that we then use this to demonstrate how this is implemented with practical applications back in the workplace. We try to ensure our students remain engaged and have some fun along the way.
